Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

They that govern must make the least noise. You see, when they row in a boat, they do their drudgery work, slash and pull, and sweat, but he that governs sits quietly at the helm. -- Selden

Every great improvement has come after repeated failures. Virtually nothing comes out right the first time. Failures, repeated failures, are jagged posts on the road to a goal. -- Charles R. Kennerly

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
