Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Words are only painted fire; a look is the fire itself."
-- Mark Twain

It happened that a fire broke out backstage in a theater. The clown came out to inform the public. They thought it was just a jest and applauded. He repeated his warning; they shouted even louder. So I think the world will come to an end and general applause from all the wise, who believe that it is a joke.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
