Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Humor is an affirmation of dignity, a declaration of man's superiority to all his beings.  
-- Konrad Gery

Confidence is the feeling you have before you understand the situation.

The tendencies of democracies are, in all things, to mediocrity, since the tastes, knowledge and principles of the majority form the tribunal of opinion.  
 -- James Fenimore Cooper

The less some people know the more eager they are to tell you about it.

45	40	55	56	57	31	78	79	80
32	28	5	2	58	29	65	66	67

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
