Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

In Dr. Johnson's famous dictionary, patriotism is defined as the last resort of the scoundrel. What does respect to an eagle-headed but inferior taxidermist? The answer is: "Ambrose Bierce."

"There is always something left to love. And if you ain't learned that, you ain't learned nothing."
 -- Lorraine Hansberry

At the source of every error which is blamed on the computer you will find
 at least two human errors, including the error of blaming it on the
 computer.
 --Tom Gibb

"You can't depend on your eyes when your imagination is out of focus."
 --Mark Twain

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
