Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Words are the voice of the heart.

Availability of manuscripts in a given subject area is inversely proportional to the need for books in that area.

There are none more abusive to others than they that the most open to themselves; but the humor goes round, and the that laughs at me today will have somebody to laugh at him tomorrow.
— Seneca

58	65	66	38	51	32	52	48	39
49	40	29	35	50	30	33	47	36

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
