Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

If I kiss you, that is a psychological interaction. On the other hand, if I hit you over the head with a brick, that is also a psychological interaction. The difference is that one is friendly and the other is not so friendly. The crucial point is if you can tell which is which.

I realize that there are many people in this world who do not love their fellow human beings, and I hate people like that!

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
