Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Want to help me replace my broken pencil sharpener?  
 You can make a \$10 donation to my charity!  
 Or by mail: KrazyDad, P.O. Box 303 San Valero, CA 91353 USA  
 Thank you!

First must give place to last, because last must have his time to come; but  
 last gives place to nothing, for here is not another to succeed.  
 -- Bunyan

There was a young poet named Dan,  
 Whose poetry for words scan.  
 When he read it to his friend,  
 He said, "Yes, I know!"

Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbers in order until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
