Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

There are many truths of which the full meaning cannot be realized until personal experience has brought it home.

Sweet are the uses of adversity: Which like the toad, ugly and venomous, Wins yet a precious jewel in his head; And thus our lives, exempt from public haunt, Find tongues in trees, eyes in the sky, and shapes in all that pass: An untroubled Mind, his own kingdom; Make his heaven.

-- Shakespeare

79	80	28	18	15	16	14	24	19

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
