Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Democrats name their children after currently popular sports figures, politicians and entertainers. Republican children are named after their parents or grandparents, depending on where the money is.

Dealing with failure is easy; work hard to improve. Success is also easy to handle; you've solved the wrong problem. Work hard to improve.

63	70	64	65	35	12	13	59	2
71	72	73	60	32	33	16	17	3

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
