Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

 Thank you!

Perhaps we are wiser, less selfish and more far-seeing than we were two  
 hundred years ago. But we are still imperfectly all these good things, and  
 since the turn of the century it has been remarked that neither wisdom nor  
 virtue have increased as rapidly as the need for both.  
 -- Joseph Wood Krutch

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
