Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Want to help me replace my broken pencil sharpener?
 You can make a \$10.00 donation to the San Joaquin Hills
 Or by mail: KrazyDad, P.O. Box 303 San Valero, CA 91353 USA
 Thank you!

Science is facts; just as horses are made of stones, so is science made of facts; but a pile of stones is not a horse, just as a collection of facts is not science.
 —Henri Poincaré

One who has a shady past knows that nice guys finish last.

75	65	76	49	22	42	14	77	78

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
