Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Towering genius disdains the beaten path. It seeks regions hitherto unexplored.
 -- Abraham Lincoln

Wise people learn to tolerate only productive anxiety in themselves. They make tension work for them instead of against them. Their aggressiveness is outgoing and initiating, not hostile or arrogant.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
