Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

More than any time in history, mankind now faces a crossroads. One path leads to despair and utter hopelessness; the other to total extinction. Let us pray that we have the wisdom to choose correctly. -- Woody Allen

Given a choice between two bad political candidates, the American people will vote for the less bad of the two. -- Vic Gold

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
