Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"The gain is not the having of children: It is the discovery of love and how to be loving."
-- Polly Berrien Berends

Patience is something that you admire greatly in the driver behind you but not in the one ahead of you.

Faith is not reason's labor, but repose.
-- Young

The difference between a successful career and a mediocre one sometimes consists of leaving about four or five things a day unsaid.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
