Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

 Thank you for helping out!

The desire of power in excess caused angels to fall; the desire of knowledge
 in excess caused man to fall; but in charity is no excess; neither can man or
 angels come into danger by it.
 -- Bacon

We are all descendants of Adam and we are all products of racial
 miscegenation.
 -- Lester B. Pearson

Then here's to the City of Boston,
 The town of the cries and the groans,
 Where the Cadboys can't see the Kiboshniks,
 And the Lowells won't speak to the Cohins.
 -- Franklin Pierce Adams

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
