Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The amount of litter in the street is proportional to the local rate of unemployment.  
-- David Lloyd-Jones

When a customer buys a low-grade article, he feels pleased when he pays for it and displeased every time he uses it. But when he buys a well-made article, he feels extravagant when he pays for it and well pleased every time he uses it.  
-- Herbert N. Casson

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
