Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

History: Papa Hegel he say that all we learn from history is that we learn  
 nothing from history. I know people who can't even learn from what happened  
 this morning. Hegel must have been taking the long view.  
 -- Chad C. Mulligan, "The Hippocrene Vocab"

If the people are to be the governors, who then shall be the governed?  
— Cotton Mather

Fathers alone a father's heart can know. What secret tides of still enjoyment  
flow when brothers love, but if their hate succeeds, they wage the war, but  
tis the father bleeds  
— Edward Young

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
