Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"The gain is not the having of children; it is the discovery of love and how to be loving."  
-- Polly Berrien Berwick

The marvels of today's modern technology include the development of a soda can, when discarded will last for ever...and a 1000 car which when properly cared for will last for two or three years.

36	44	27	34	51	52	60	53	28

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
