Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

You will step on the soil of many countries.

Egotism is the anesthetic given by a kindly nature to relieve the pain of being a damned fool.
-- Bellamy Brooks

Modest words admit of no defence. For want of decency is want of sense.
 -- Alexander Pope

It has been said that there are two theories of history: conspiracy and blunder. If there is some truth to that, it is surely equally true that blunder seldom receives all the credit due it as an explanation of complex events.
 -- Michael Scully

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
