Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The man who sees the consistency in things is a wit, the man who sees the inconsistency of things is a humorist.
— G. K. Chesterton

Democrats eat the fish they catch. Republicans hang them on the wall.

"Senses are so beautiful that they almost seem as if we were looking through the gates of Heaven."
--John Lubbock

A light supper, a good night's sleep and a fine morning have often made a hero out of the same man, who, by indigestion, a restless night and a rainy morning would have led a coward.
--Cheslerfield

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
