Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*"A bookstore is one of the only pieces of evidence we have that people are still thinking."  
-- Jerry Seinfeld*

Saturday night in Toledo Ohio,  
 Is like being nowhere at all.  
 All through the day how the hours rush by,  
 You sit in the park and you watch the grass die."  
 -- John Denver, "Saturday Night in Toledo Ohio."

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
