Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

According to the obituary notices, a mean and unimportant person never dies.

Dimensions will always be expressed in the least usable term. Velocity, for example, will be expressed in furlongs per fortnight.

Art is the only way to run away without leaving home.

When love is gone, there's always justice.
And when justice is gone, there's always force.
And when force is gone, there's always Mom.
Hi, Mom!
-- Laurie Anderson

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
