Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*"I don't think they could put him in a mental hospital. On the other hand, if he were already in, I don't think they'd let him out."*

27	62	61	58	59	30	29	60	54

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the order listed. Follow until the number of squares in order 1, 2, 3 indicate to solve next. A square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
