Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The youth of today and of those to come after them would assess the work of the revolution in accordance with values of their own ... a thousand years from now, all of them, even Marx, Engels, and Lenin, would possibly appear rather ridiculous.
-- Mao Tse-tung

34	64	65	12	3	9	39	36	49

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
