Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

It's odd and a little unsettling, to reflect upon the fact that  
 English is the only major language in which "r" is capitalized, in many  
 other languages "R" is capitalized and the "r" is lower case.  
 -- Sydney J. Harris

"Earth laughs in flowers."  
-- Ralph Waldo Emerson

To go to law, is for two persons to kindle a fire at their own cost, to warm others, and singe themselves to chinders; and because they cannot agree, to what is truth and equity, they will both agree to unplume themselves, that others may be decorated with their feathers.  
-- Feltham

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
