Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

True happiness will be found only in true love.

*'Tis a common proof, that lowliness is a Edward Young, ambition's ladder,
whereto the climber upwards turns his face; but when he once attains the
almost round, he then into the ladder turns his back; looks into the clouds
scorning the base degrees by which he did ascend.
-- Shakespeare*

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
