Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!
My family and I really appreciate your support.*

Bad company is like a nail driven into a post, which, after the first or second blow, may be driven out with little difficulty; but being once driven up to the head, the pliers must be used, and which can only be done by the destruction of the wood.
-- Augustine

3	17	69	58	20	18	26	16	21
4	81	70	71	72	13	14	7	8

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
