Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

... the privileged being which we call human is distinguished from other animals only by certain done-which-should-manifestations which in charity we call only *idiotery*.  
--R. A. Lafferty

A committee is an animal with a hundred stomachs and no brains.

17	29	23	35	33	32	26	30	27
15	24	19	69	70	20	21	25	22

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the order of the squares in order 1-23 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
