Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!  
My family and I really appreciate your support.*

Farewell a long farewell, to all my greatness! This is the state of man,  
 Today he puts forth The tender leaves of hope; Tomorrow blossoms, And bears  
 his blushing honours thick upon him; The third day comes a frost, a killing  
 frost,  
 -- Shakespeare

There is one art of which man should be master -- the art of reflection.  
 -- Coleridge

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
