Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"A professor is someone who talks in someone else's sleep."  
-- W. H. Auden

47	48	42	59	54	52	74	44	63
46	49	64	60	55	50	65	45	61
66	81	67	68	56	75	76	69	77
62	78	70	71	57	79	80	72	73

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
