Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The phrase "we(I)(you) simply MUST ..." designates something that need not be done. "That goes without saying" is a red warning. "Of course" means you had best check it yourself. These small-change clichés and others like them, when read correctly, are reliable channel markers.  
 -- Lazarus Long

26	43	42	38	49	36	78	67	23

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3,... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
