The vile are only vain; the great are proud.
-- Byron

When it's not needed, zoning works fine; when it is essential, it always breaks down.
-- John McClaughry

Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

You can only live once, but if you do it right, once is enough.

"Don't go around saying the world owes you a living. The world owes you nothing. It was here first."
-- Mark Twain

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
