Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Is the curse of talent that, although it labors with greater steadiness and perseverance than genius, it does not reach its goal, while genius, already on the summit of the ideal, gazes laughingly about.

Have you noticed that all you need to grow healthy, vigorous grass is a crack in your sidewalk?

LIBRA (Sep. 23 to Oct. 22)
Your desire for justice and truth will be overshadowed by your desire for filthy lucre and a decent meal. Be gracious and polite. Someone is watching you, so stop staring like that.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
