Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

One crime is condoned by the commission of another.
-- Seneca

"I can resist anything but temptation."

Many years ago in a period commonly known as Next Friday Afternoon, there lived a King who was very Gloomy on Tuesday mornings because he was so Sad thinking about how Unhappy he had been on Monday and how completely Mournful he would be on Wednesday....
— Walt Kelly

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
