Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

The society which scorns excellence in plumbing because plumbing is a humble activity and contempt for art because good art is an undisciplined activity is an excited society which in spite of its philosophical attainments lacks the solid philosophy of a humble craftsman or artist. Neither its pipes nor its heroes will hold water.
 --John W. Gardner

It's very painful for you to criticize your friends - you're safe in doing it. But if you take the slightest pleasure in it, that's the time to hold your tongue.

*There is one around here somewhere.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you used to solve the puzzle. Follow the numbered squares in order 1, 2, 3, etc. until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
