Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*If you've already donated, thank you so much!  
My family and I really appreciate your support.*

... The Anarchists' [national] anthem is an international anthem that consists of 365 raspberries blown in very quick succession to the tune of "Campion Races". Nobody has to stand up for it, nobody has to listen to it, and, even better, nobody has to play it. -- Mike Harding, "The Anarchist Anarchist's Almanac."

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
