Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Nine-tenths of wisdom is being wise in time."
 --Theodore Roosevelt

Arthur's Laws of Love:
 1. People to whom you are attracted invariably think you remind them of someone else.
 2. The love letter you finally got the courage to send will be delayed in the mail long enough for you to make a fool of yourself in person.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
