Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Whatever isn't forbidden is required.
-- Murray Gell-Mann

Why You Can't Run When There's Trouble in the Office: No matter where you stand, no matter how far or fast you flee, when it hits the fan, as much as possible will be propelled in your direction, and almost none will be returned to the source.
-- John L. Shelton

48	47	35	14	18	19	11	66	65
23	27	26	15	17	20	80	81	22

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
