Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

I wouldn't mind dying -- it's that business of having to stay
 dead that scares the daylights out of me.
 -- R. Cris

"Responsibility is the price of freedom."

Decision of character is one of the most important of human qualities.
 philosophically considered. Speculation, knowledge, is not the chief end of
 man; it is action.
 -- Bunmap

Oznan's Laws:
 1. If someone says he will do something, "without fail," he won't.
 2. The more people talk on the phone, the less money they make.
 3. People who go to conferences are the ones who shouldn't.
 4. Pizza always burns the roof of your mouth.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
