Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"What are we going to do?"  
 "Me. I'm examining the major Western religions. I'm looking for something that's soft on morality, generous with holidays, and has a short initiation period."

"The reward of energy, enterprise and thrift is taxes."  
 -- William Feather

For specialization is a process that begins as an attempt to develop experts who will then inform the whole body. It can end, however, and sometimes does, in the removal of any inclination to question the supposed "experts" -- who themselves are sometimes not all that expert.  
 -- Michael Scully

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
