Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"The idea is to die young as late as possible."
 --Ashley Montagu

Honorable: Afflicted with an impediment in one's reach. In legislative bodies, it is customary to mention all members as honorable; as, "the honorable gentleman is a scurry cur."
 -- Ambrose Bierce

There are as many Communists in the freedom movement as there are Eskimos in Florida.
-- Martin Luther King, Jr.

You can tell it's going to be a rotten day when you turn on the news, and they're showing emergency routes out of the city.

Authority intoxicates. And makes mere sots of magistrates. The fumes of it
 invade the brain. And make men giddy, proud and vain: By this the fool
 commends the wise. The noble with the base compares. The sot assumes the rule
 of wit. And cowards make the base submit.
 -- Butler

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1,2,3... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
