Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

A great source of error is the judging of events by abstract calculations, which though geometrically true are false as they relate to the concerns of beings governed more by passions and prejudice than by an enlightened sense of their interests.
 -- Alexander Hamilton

Marvel brought her bad into Exit once and started whacking people on the dance floor. Now everyone's doing it. It's called grand slam.
 -- Ransford, Chicago Reader 10/7/83

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
