Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

KrazyDad runs on electricity and coffee. Want to buy me a cup of coffee?
 You can find me at <http://krazydad.com>
 Or by mail: KrazyDad, P.O. Box 103, Sun Valley, CA 91353 USA
 Thank you for helping out!

Praise the Power that hath made and preserved us a nation! Then conquer we must, when our cause is just, and our rights are God's; or we'll never be free, nor our land the land of the free; and we'll never be free, nor our land the land of the free; and we'll never be free, nor our land the land of the free.
—Francis Scott Key

When a place gets crowded enough to require ID's, social collapse is not far away. It is time to get someone to think the best things about space travel is that it makes us go elsewhere.
—Robert Heinlein

During my eighty-seven years I have witnessed a whole succession of
 technological revolutions. But none of them has done away with the need for
 character in the people who have the ability to think.
 -- Bernard M. Baruch

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the order listed in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
