Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

There ain't any news in being good. You might write the doings of all the conveniences of the world on the back of a postage stamp, and have room to spare.

It is by the goodness of God that in our country we have these three
 unspendably precious things: freedom of speech, freedom of conscience, and the
 prudence never to abuse either of them.
 -- Mark Twain

77	56	64	78	79	70	71	65	72
57	48	24	37	36	23	1	25	7

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
