Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Nothing is so contagious as enthusiasm; it is the real allegory of the tale of Orpheus; it moves stones, it charms brutes; Enthusiasm is the genius of sincerity; and truth accomplishes no victories without it.
-- Butler

"People protect what they love."
 --Jacques Yves Cousteau

Envy is a weed that grows in all soils and clings, and is no less
 insidious in the country than in the court; is not confined to any rank of men
 or extent of fortune, but rises in the breasts of all degrees.
 -- Lord Clarendon

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
