Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

The reason I know my youth is all spent? My get up and go got up and  
went.  
-- Len Ingerbrigson

The specialist learns more and more about less and less until, finally, he  
knows everything about nothing; whereas the generalist learns less and less  
about more and more until, finally, he knows nothing about everything.

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
