Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

"Opportunity knocked. My doorman threw him out."
-- Adrienne Giesoff

Work Rule: Every employee should lay aside from each pay a goodly sum of his earnings for his benefit during his declining years, so that he will not become a burden on society or his betters.

The man who says he is willing to meet you halfway is usually a poor judge of distance.

As long as war is regarded as wicked, it will always have its fascination. When it is looked upon as vulgar, it will cease to be popular.
-- Oscar Wilde

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
