Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

*It is fear that first brought gods into the world.*

*Occident: The part of the world lying west (or east) of the Orient. It is largely inhabited by Christians, powerful sub-tribe of the Hypocrites, whose principal industries are murder and cheating, which they are pleased to call "war" and "commerce." These, also, are the principal industries of the Orient.*

NO MAINTENANCE: Impossible to fix

I can compare our rich misers to nothing so fully as to a whaler: that plays and gambles, driving the poor fry before him, and at last devours them all at a mouthful.  
-- Shakespeare

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use, but it's probably close. Follow the numbered squares in order 1, 2, 3, ... until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
