Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

Let us cling to our principles as the murderer clings to his last plank when
right and temp'st come around him.
--Dr. Young

"We had it tough ... I had to get up at 9 o'clock at night half an
hour before I went to bed to get a lamp of oil, a candle, work 29 hours down
hill, and when we came out at the top of the hill, we had to dance about on
our grave singing Halleluia ..."
--Monty Python

80	59	72	60	43	29	41	12	73
74	61	4	3	44	2	7	8	75

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
