Fill in the blank squares so that each row, each column and each 3-by-3 block contain all of the digits 1 thru 9.

The dotted lines indicate areas which also contain a non-repeating set of digits. These squares can be added together to produce the sums shown in the clues.

Be sure to use the answers page if you get stuck!

KrazyDad runs on electricity and caffeine. Want to buy me a cup of coffee?  
 You can find me at [krazydad.com](http://krazydad.com)  
 Or by mail: KrazyDad, P.O. Box 103, Sunnyvale, CA 91353 USA  
 Thank you for helping out!

I am grateful for all my problems. As each of them was overcome I became  
 stronger and more able to meet those yet to come. I grew on all my  
 afflictions.  
 --J. C. Penney

3	18	21	74	51	75	76	5	4

INSTRUCTIONS: These hint grids reveal the order in which the squares were solved by my computer. It's not necessarily the same order you would use. Put the numbers in the numbered squares in order 1, 2, 3 until you find a square you haven't solved yet. This square (or the one or two immediately after it) is a good candidate to solve next.
